PROJECTS

StudyNotion 🔗

Engineered a robust e-learning platform using React.js, Tailwind CSS, Node.js, Express, MongoDB etc. The platform enables users to register, explore and enroll in courses, leave ratings and reviews, and engage with content. Instructors can manage their courses, track performance, and connect with students, creating a seamless and interactive learning experience.

Job Portal 🔗

"Developed a full-stack job portal using the MERN stack, ShadCN, and TailwindCSS. Students can register, apply for jobs, upload resumes, and manage their skills. Recruiters can create companies, post jobs, and manage applications by accepting or rejecting candidates. The platform is fully responsive and optimized for user experience."

Portfolio 🔗

"Designed and developed a fully responsive and creative portfolio using HTML, CSS, and JavaScript, showcasing skills, projects, and professional achievements with a modern user interface."
